

# Help clients help themselves

Deliver the modern experience your clients expect. Clients can easily manage their bookings, view appointment history, and complete forms – anywhere, anytime, on any device.

Enterprise

## View appointment history

Clients are busy. Make it easy for them to see their past and upcoming appointments so they can rebook an experience they loved.

## Convenient log in

Clients have 3 ways to access their client portal: confirmation emails and texts, self-booking, or a link from your website.

## Manage appointments

Client can't make it? No problem. Boulevard makes rescheduling a breeze so clients stay on the books.

## Secure and convenient

Keep client information safe and secure. Clients can forget passwords, so we utilize email and/or text verification codes instead.

## Streamline forms

Nobody likes paperwork. Boulevard reminds clients to stay on top of their pre-appointment tasks and confirm their appointments.

## Showcase your brand

Your business is the star of the show. Boulevard is here behind the scenes to free up your front desk for more in-person service, less tech support.
